

# All-in-One, Integrated Systems Stack

For the World's Leading International Schools

## Service Overview

Faria Education Group provides an integrated technology suite spanning Admissions Management, Learning & Teaching, and Activities Management & Online Payments for over...

**3,000** Leading international schools in **120** Countries

## Key Benefits

- Unified Family Experience:** Provide students & families with a consistent, modern and intuitive user experience from initial inquiry to enrolment and school life & beyond.
- Mobile All-in-One:** Access all key services on the go from iOS and Android via one app.
- Single-Sign-On:** Seamless access and authentication from one account to all key services designed with international school needs in mind.
- Automatic Data Sync:** Student & family demographic data stays in sync across all services (daily and hourly) via custom API integrations.
- Cost & Time Savings:** Consolidating disparate systems achieves considerable time & efficiency improvements for the whole school, along with significant annual cost reductions.

## Key Integration Partners

We partner and integrate with best-in-class providers.

Google Apps for Education

**SSO Connectors**  
Google for Education is a service from Google that provides independently customizable versions of several Google products.

Google Docs

**Collaborative Assignments**  
A seamless experience for teachers to link, assign, and distribute a Google Doc template to their entire class.

- School Bookings
- Parent-Teacher Conference Bookings
- Transport System
- Parent Communications
- Sports Team Organisation
- School Trip Management
- Online Parent Consent
- Personalised Calendars
- Mobile Attendance Registers
- Mobile Apps
- MIS Integration

## The Faria Difference

### Built For International Schools

Faria Education Group's suite of services has been built specifically with international schools in mind, and it is the only systems provider with a 12-year history of product innovation supporting international schools. Our development roadmap continues to focus on international needs meaning schools around the world can rely on Faria's systems to continue to meet their needs.

### Best in Breed Approach

The modern school requires the ability to run entirely online, both inside and out of the classroom. Between ManageBac, OpenApply, and SchoolsBuddy, Faria covers all primary areas of the school. While we can't yet manage all aspects of running an international school, we've identified best-in-breed integration partners to provide a seamless, world-class whole school experience.

### Enterprise Ready

For School Groups & Districts with powerful API & Integrations support to a broad suite of partners.

### Intuitive and Easy to Use

Faria systems feature modern designs that are easy to navigate and continuously being improved based on user feedback. Administrators, parents, and students all have dedicated spaces featuring only the tools they need to complete their work.

### Product Vision

Faria is dedicated to providing a unified family experience across our suite of products, providing an alternative to all-in-one solutions that lack important features or the problem of disparate systems which result in information silos. Our goal is to provide a seamless experience for administrators, teachers, students, and parents across all of our solutions.

### End to End Online Processes

Faria's systems allow schools to take academic, admissions, activities management, payments, and other process fully online, a requirement for every modern school.

### World-Class Support

Available 24-hours a day, Monday through Friday with a 99% satisfaction rating and unmatched 98% renewal rates among international schools.

### Reliability & Uptime

Our systems are hosted in the cloud and have historically maintained over 99.9% uptime. With hosting distributed over servers around the world via Amazon Web Services and network security provided by Cloudflare, you'll always have a fast and reliable connection to your account.

### Security & Data Protection

Faria Education Group is one of the only education technology providers with ISO 27001:2013 certification, providing our customers with peace of mind that their data is handled securely. We're fully GDPR compliant and follow the local data protection laws of all countries where our systems are hosted.

We work with the world's leading international schools.

We are honoured to serve over 3,000 leading international schools in 120 countries.

"One of our students will be moving to Quito in Ecuador later this year and the family really wants a school that has ManageBac!"

**Linda Belonje**  
KIS International School

the Classroom & Beyond

## Testimonials

**Dan Egerov**  
The International School of Azerbaijan

"This year has been the smoothest year on transitioning to the next academic year. Despite all the changes made to the process, the support has been wonderful and I'm happy to have a super seasoned team who all know how to use ManageBac and OpenApply."

**Clint Carlson**  
Istanbul International Community School

"We are LOVING SCHOOLSBUDDY. Never have I had a large new system like this roll out so smoothly. Thank you a million times."
